

Backstage at the Interchange

Have you ever wondered what it takes to complete a large-scale construction project?

Our project team is working hard to ensure your safety and meet deadlines during construction. This work sometimes happens behind the scenes. Check out the I-405 Wilmington Avenue Interchange Modification Project website to see our team in action and learn about the daily activities that are essential for this city improvement.

For a glimpse of the daily activities, check out NEW photo updates on "i405wilmington.com" Simply click on "Media" link in the top menu (as seen in the photo above) and then select "Photos" for the monthly archives

About the Project

The City of Carson is modifying the San Diego Freeway (I-405) at Wilmington Avenue Interchange. Improvements include a new Northbound I-405 on-ramp at Wilmington Avenue, widening of Wilmington Avenue from E. 223rd Street to E. 220th, ramp modifications and traffic signal synchronization. The project will retrofit the bridge over the Dominguez Channel.

Crews conduct a lean concrete pour for the widening/realignment of Southbound I-405 On-Ramp at Wilmington Avenue.

Crews prep the retaining wall falsework to be removed along the Northbound I-405 On-Ramp at Wilmington Avenue.
